### INFORMATION DISCLOSURE STATEMENT

SIR:

In accordance with 37 C.F.R. §1.56, applicants wish to call the attention of the Examiner to the information identified in the attached form PTO-1449. A copy of the related art references are enclosed. It is requested that the information and art be made of record and included on the 'references cited' portion of any patent issuing from this application.

Since this filing is made with an RCE request (reopening prosecution) no fee is due for filing nor a statement under 1.97 under MPEP §609.

Applicants note that this IDS/PTO-1449 is part of a larger filing. Applicants have additionally filed via ePave/eIDS many additional Disclosure Documents.

The concise explanation of relevance of any non-English language references is found in an accompanying translation or discussion of the same reference. See MPEP §609 A(3).

Applicants respectfully request that the examiner consider the enclosed reference materials in the examination of this application.

No fees are deemed necessary for the submission of this Information Disclosure Statement, as it is being filed before a first office action in this Application. However, if any fees are necessary in connection with the filing of this Information Disclosure Statement, authorization is provided to charge any fees to or return any overpayments to Deposit Account No. 10-0100.

The citation of this information does not, and is not intended to, constitute a waiver or admission of priority or that any cited item is available as a reference, alone or when combined, or a waiver of any right under applicable statutes, codes, rules, or otherwise.

It is therefore believed that the Examiner will concur with applicant's belief that the subject matter presently claimed and previously allowable is neither anticipated nor rendered obvious by such references.

Respectfully Submitted,

Andrew F. Young
